

**LeeAnna Hoskins**  
**Vice President, Payer Access and Reimbursement**  
**Sarepta Therapeutics**

LeeAnna Hoskins is Sarepta's vice president, Payer Access and Reimbursement, leading a cross-functional team to facilitate patient access to therapies. As a veteran of the pharmaceutical and biotechnology industries, LeeAnna has devoted nearly three decades of her career working with payers, specialty pharmacies, patient services, pharmacy and medical benefit managers, and limited distribution networks to enable patient access.

After starting her career at Wyeth, LeeAnna held positions of increasing responsibilities at Pfizer, Vertex, and Sandoz before joining Sarepta as an original member of the team that launched the company's first therapy for Duchenne muscular dystrophy (DMD). A significant portion of LeeAnna's career has been dedicated to advocating for patients with rare diseases.

In addition to her work with customers, LeeAnna educates employees around the payer environment and is a mentor and developer of people across the organization. She is an active member of her community where she has served on various boards, including the United Way. LeeAnna is a graduate of the University of Kentucky.
